

# 9000E

## 5 - 12 kW Generator (LCD-Display)

### Universal corona generator for all applications

Sophisticated electronics in a compact housing, innovative software and hardware solutions with a user-friendly interface — our high-tech generator 9000E is tailor made for the requirements of the converting industry. Reliable results, uninterrupted operation and a low overall cost of ownership are important qualities in a device that is expected to fulfil one big expectation: „install and forget“.

### Product features

#### **Robustness**

Sensitive electronics are safely shielded from dirt and humidity, making the generator suitable for operation under adverse climatic conditions.

#### **Low operation costs**

Fine-tuning to the resonance frequency of the system ensures maximum efficiency.

#### **Low maintenance costs and long service life**

The generator is equipped with comprehensive self-diagnostic functionality and safeguards, which contribute to reliable long-term operation.

#### **Safe operation**

The fast-acting short-circuit detection is just one of many active and passive design features protecting the operator foremost, and the system.

#### **Intuitive user interface**

The LCD display for navigation and the rotary control knob work together perfectly for time-saving and intuitive operation.

*Adhesion guaranteed!*

## Technical data

<b>Treatment power</b>	5 – 12 kW
<b>Output Frequency</b>	15 – 35 kHz
<b>Mains Voltage</b>	3 x 380 – 480 V, +/- 10%, 50/60 Hz
<b>Protection</b>	IP43
<b>Dimensions (WxHxD)</b>	780 x 600 x 350 mm
<b>Weight</b>	approx. 60 kg
<b>Colour</b>	RAL 7035, light grey, structured
<b>Ambient temperature</b>	max. 40 °C (without optional cooling)

Improved dyeing

No more wet chemicals

Low operating cost

Improved adhesion

High wettability

Custom-engineered solutions

SOFTAL Quality

Environmentally friendly process

Uninterrupted operation
